

Community Safety - Lesson Plan

Activity 1 - Agree or Disagree

Curriculum for Excellence Experiences and Outcomes

I understand that my feelings and reactions can change depending on what is happening within and around me. This helps me to understand my own behaviour and the way others behave. **HWB 2-04a.**

1. Sharing the Learning Outcomes -

- I can appreciate that anti-social behaviour means different things to different people

2. Active Learning - Prior to starting the activity explain to the children about difference of opinion and use examples to clarify e.g favourite football team or music band. Ensure that children understand the need to come to accept and respect the opinions of others.

3. Demonstrating Understanding - Children will be asked to respond to each statement, either through the use of cards stating agree/disagree, whiteboards or by physically moving to an area of the room e.g. all agrees to this corner. The majority answer will be the decided response.

4. Review and Recall - Plenary would be through;

- After each statement discussion should take place as to why choices were made
- Children should be able to draw upon real life comparisons
